Loss Discovery Pilot

Find out where your capacity is going.

Synergy Axella
Results Through Expert Insight

Start with one production line, one department, or one measurable operational challenge.

BEST FOR	SCOPE
Plants new to digital loss tracking, or one critical line.	1 line or work cell, 1 shift pattern

WHAT'S INCLUDED

- On-site kick-off and loss walk
- OEE and downtime tracking live in week 1
- Platform access for the whole team
- Weekly review call

DELIVERABLES

- OEE baseline
- Top 3 losses with root causes
- Business case for the next step

OUTCOME

A clear, data-backed picture of your biggest losses in 4 weeks.

How the pilot runs

01 · Baseline assessment	02 · Focused implementation	03 · Performance review	04 · ROI evaluation
Identify existing losses and establish performance measurements.	Configure the agreed monitoring and improvement workflow.	Track results, investigate losses, and evaluate corrective actions.	Compare outcomes against the baseline and determine the next phase.

Suggested pilot duration: 30-90 days, depending on scope and data readiness.
