PACKAGES & ENGAGEMENT MODELS · 60 DAYS

Performance Pilot

Fix the top losses and prove the gain.

Synergy Axella
Results Through Expert Insight

Start with one production line, one department, or one measurable operational challenge.

BEST FOR	SCOPE
Plants that know their problem and want a measured improvement.	2 to 3 lines or one area, all shifts
WHAT'S INCLUDED	**DELIVERABLES**
• Everything in the 30-day pilot • Daily short-interval control routine • AI Loss Investigator and digital shift handover • Coaching of team leaders on site	• Improvement on 1 agreed KPI (e.g. OEE, scrap, changeover time) • Standard work for the new routines • Before/after report

OUTCOME

A proven, measured improvement on the lines that matter most.

How the pilot runs

01 · Baseline assessment	02 · Focused implementation	03 · Performance review	04 · ROI evaluation
Identify existing losses and establish performance measurements.	Configure the agreed monitoring and improvement workflow.	Track results, investigate losses, and evaluate corrective actions.	Compare outcomes against the baseline and determine the next phase.

Suggested pilot duration: 30-90 days, depending on scope and data readiness.
